

VFD's THAT KNOW THE DRILL...
AND MIGHT EVEN THROW YOU FOR A LOOP.

AUTOMATION

UNDERSTANDING Whether our Variable Frequency Drives are turning drill heads on oil rigs or somersaults on roller coasters, Mitsubishi understands the real science and art of optimizing VFD applications. How? Because as the world's largest producer of VFDs, we've addressed, and solved, many of industry's toughest applications...cost-effectively, and with unsurpassed service and support. Our broad line of VFDs (fractional HP–1,000 HP) and full range of automation controls with networking options make Mitsubishi the only source you need for stand-alone VFDs or complete automation packages. **Phone: 1.800.445.4496 In Canada call: 905.475.7728 www.meau.com**
